PROFILE

I am a hardworking and detail-oriented Quality Analyst with 1year 2 months of experience in Manual testing. I have tested web and mobile applications by writing and executing test cases. I have good understanding of software testing process (SDLC & STLC). I have worked on different types of testing like functional, regression, smoke, and UI testing. I also have experience in finding and reporting bugs. I am a quick learner and like to work in a team to help deliver good quality software.

WORK EXPERIENCE

- **Coding Cafe** JUNE, 2024 PRESENT
Quality Analyst (Manual Testing) (1 yr 2 mos of experience)
 - Performed manual testing of web and mobile applications to ensure high-quality product delivery.
 - Created and executed detailed test cases for various functionality testing, including functional, regression, smoke, and UI testing.
 - Supported the team in preparing test plans and test reports to document the results of testing.
 - Collaborated with development and business teams to understand requirements and enhance testing coverage.
 - Handled daily communication with clients, gather requirements, set expectations, and deliver project updates.
